### Relevant Info

After Studying a degree in music production with a focused dissertation on sound design for motion picture I began working freelance as a sound technician for a local video production company. After applying audio editing skills in the post production suite I quickly became a useful editor and several Adobe accredited courses many projects later I am the go-to editor for the same media company as many others. Through networking and word of mouth I have had the opportunity to work with various media partners and lots companies from SME's to massive corporates on projects such as live conferences, Animation, product videos and Adverts. Currently my time is split between two disciplines. On the one hand I am producing corporate and commercial content such as Ads product videos and digital tutorials for accountancy software company intuit, Commercials and public information videos for Thames valley police, Internal communications for Vodafone and various other videos for lots of other clients. On the other hand I work on creative projects and have experience on Features, Shorts and Web series as a Director, Producer, Production Manager and various roles in the technical department. I have have a broad knowledge of all departments and

working knowledge of what it takes to make productions of all sizes work. I have written scripts and screenplays for fictional and corporate narratives and can create engaging dialogue and prolific stories that transfer well to film. My IMDb profile can be seen below. From delivering successful online campaigns for various companies day to day to producing a commercially viable web series. I have a proven track record of delivering projects in the Corporate and more Creative Sectors.
